

Pharmaceuticals

Pharmaceuticals range among Cargolux' most valuable types of commodities. Bringing medications to patients around the world involves an important responsibility. That is why these shipments require the utmost care and attention.

With Cargolux, pharmaceuticals reach their final destination in a timely and secure way, which is vital!

Unbroken cool chain guarantees freshness

To guarantee optimal transport conditions, pharmaceuticals travel in state-of-the-art cool containers enabling staff to monitor precise temperature control during the entire flight.

- More than 55 stations served
- Fast transit through the Luxembourg Cargo Centre with less than 300 metres from the storage facilities to the aircraft
- Strict maintenance of the cool containers to ensure faultless functioning
- Expert Carrier and Ground Handling Staff trained in pharmaceuticals
- Dedicated expert team to handle shipments from departure to arrival

- Temperature Control Cells are available to ensure constant temperature levels
- Thermal Blankets to avoid temperature peaks during transfer processes
- Upon request, delivery of cool-containers directly to customers' premises

Pharmaceuticals: the Cargolux advantage

- Immediate reservations
- Guaranteed onforwarding worldwide
- Scheduled services
- More than 55 destinations worldwide
- More than 85 offices on all continents
- Modern B747-400 freighters with precise temperature control
- Non-stop long-haul flights. A further benefit for all ground travel through Luxembourg: direct and virtually traffic-free access to Europe's motorway network
- Automated shipment tracking and tracing via our Internet site

World-class. Worldwide

Cargolux is Europe's largest all-cargo airline, operating a fleet of modern 747-400 freighters with scheduled cargo flights to over 55 destinations around the globe. In addition, the Company is the launch customer of the new B747-8F. Cargolux also offers split and full charters and third-party aircraft maintenance. Moreover, it relies on its extensive trucking network to provide expert road feeder services between its Luxembourg hub and major European industrial centres.

Cargolux has repeatedly been named 'Best All-Cargo Airline' by various trade publications and is the recipient of the '2010 All Cargo Airline of the Year' award by U.K. magazine Air Cargo News.

We fly as promised

Pharmaceuticals do not allow for long waiting times. Hence, Cargolux communicates its schedules to its customers in advance, allowing them to plan the smoothest routing for their temperature-sensitive shipments.

Because the business of Cargolux is freight only, its schedule is set up to serve the specific needs of commodities, not passengers.

With Cargolux, pharmaceuticals travel first class!

Faster transport with modern aircraft

Cargolux's B747-400 freighters are ideal for the transportation of temperature-sensitive goods. Four air-conditioning zones allow the transportations of different types of commodities on the same flight. The aircraft's enhanced range has eliminated unnecessary fuelling stops, resulting in shorter overall transport times.
